

Detailed research résumé

– Maxime LEFRANÇOIS –

April 25, 2014

Maxime LEFRANÇOIS, 28.
Full-time teaching and research assistant (ATER)
Teaching: IUT Nice Sophia Antipolis
Research: Wimmics team (I3S, CNRS, Inria).

Overview

I have a strongly pluridisciplinary education oriented towards research and teaching:

- Currently:
 - PhD in lexical semantic knowledge representation (defense planned on June 24th 2014);
 - Full-time teaching and research assistant;
- 2010-2013: PhD student in charge of teachings;
- 2010: M2 in computer science;
- 2009: M2 in signal processing;
- 2008: prepared and passed the French Agrégation in mechanics.

Research

My PhD, titled *Lexical Semantics Knowledge Representation for the Meaning Text Theory: Conceptualization, Representation, and Operationalization of Lexicographic Definitions*. is to be defended on June 24th 2014, and led to 10 publications in international conferences.

Chosen publications

- **TOTh'14:** *Méthodologie d'Ingénierie des connaissances pour la représentation des définitions lexicographiques dans le cadre de la théorie Sens-Texte* (international conference, to appear)
- **RANLP'13:** *Rationale, Concepts, and Current Outcome of the Unit Graphs Framework* (international conference)

Teaching and supervision

I taught more than 680H in computer science, mechanics, and other scientific subjects, at different levels:

- 400H in computer science at levels L2, L3, M1, M2;
- 96H in mechanics at levels L1 et L2;
- more than 170H of personal lectures in maths, physics, mechanics.

I co-supervised a 6 months M2 internship, that resulted in two conference publications.

Standardization

I participated in the W3C working group Multilingual Web - LT in 2012;

CURRICULUM VITAE

1/ Civil state

MAXIME LEFRANÇOIS, born on the 04/26/1986 in CAEN, single, no children ; french.

Professional:

Wimmics, Inria Sophia Antipolis - Méditerranée
 2004 rte des Lucioles, BP. 93
 06902 Sophia Antipolis CEDEX, France
 Tel : 04 92 96 50 53
 Mel : maxime.lefrancois@inria.fr
 Site : <http://maxime-lefrancois.fr>

Personal:

4 rue Soutrane
 06560 Valbonne, France
 Tel : 06 77 95 05 00
 Mel : maxime.lefrancois.86@gmail.com

2/ Education and Diploma

2010-2014	PhD student in charge of teaching Specialized in computer science	UNIVERSITÉ NICE SOPHIA ANTIPOLIS
2011	Summer School ESSLLI 2011 European Summer School in Logic, Language and Information	Ljubljana, Slovenia
2009-2010	M2P in computer science Human-System Communication Engineering Distinction: first-class honors.	UNIVERSITÉ GRENOBLE 2
2008-2009	M2R in signal processing Signal Image Speech Telecommunications Distinction: upper second class honors.	INP GRENOBLE & GRENOBLE 1
	M1 in computer science Human-System Communication Engineering 1 st semester: upper second class honors.	UNIVERSITÉ GRENOBLE 2
2007-2008	Preparation to the French agrégation of mechanics Exam passed in June 2008 (ranked 14 th /25)	ENS CACHAN
2006-2007	M1 in mechanics Mechanics and Systems Engineering Distinction: lower second class honours.	ENS CACHAN
2005-2006	L3 in mechanics Distinction: upper second class honors.	ENS CACHAN AND PARIS 6
2003-2005	Scientific preparation to competitive entrance exams for French graduate engineering schools, Specialized in Physics and Engineering Sciences (PSI)	LYCÉE VICTOR HUGO, CAEN
2003	Equivalent A-Levels Specialized in Industrial Sciences, and Mathematics Distinction: upper second class honors.	LYCÉE JEAN GUÉHENNO, FLERS

TEACHING

3/ Teaching experiences

I have strong experiences in teaching (more than 680H) in computer science and other scientific fields. I was in charge of some of these courses, and took part in all teaching-related tasks: teaching materials development, lectures, practical works, tutorials, final projects and exams.

- 192H in 2013-2014 in computer science as a full-time teaching and research assistant at IUT Nice Côte d'Azur.
 - Multimedia Web and Semantic Web - in charge
Contact: Full Pr. Nhan Le Thanh.
 - Software Engineering Tools and Models - in charge
Contact: Full Pr. Mireille Blay-Fornarino.
 - Database management systems
Contact: Full Pr. Nhan Le Thanh.
 - Object Oriented Programming
Contact: Associate Pr. Michel Syska.
- 128H in 2011-2012 in computer science as doctoral student at Université Nice Sophia Antipolis.
 - Object Oriented Modeling, UML, OCL
Contact: Full Pr. Philippe Collet
 - Object Oriented Programming
Contact: Associate Pr. Frederic Mallet
 - Advanced Java EE6, EJB, JPA, JSF, CDI Programming
Contact: Associate Pr. Michel Buffa
 - Advanced Web 2.0, HTML5, CSS3, JavaScript Programming
Contact: Associate Pr. Michel Buffa
- three times 24H in 2011-2013 in computer science, at EMSI Marrakesh and Casablanca, Morocco.
 - Advanced Java EE6, EJB, JPA, JSF, CDI Programming - in charge
Contact: Associate Pr. Michel Buffa
- 96H in 2010 in mechanics at Université Joseph Fourier, sport department.
 - Statistics and Informatics - in charge
Contact: Associate Pr. Violaine Cahouet
 - Mechanics of the Sport Movement
Contact: Associate Pr. Franck Quaine
- ~170H as a personal lecturer, various scientific topics.

Chosen lecture material: Multimedia Web and Semantic Web:

4/ Internship supervision

2013, 5mois **Final M2 project,**

INRIA SOPHIA ANTIPOlis

Title: Mock-up of a system for interacting with objects of the unit graphs formalisms.

Student: Romain Gugert, UNIVERSITÉ PIERRE ET MARIE CURIE (PARIS 6)

Co-advisor: Alain Giboin, CR

RESEARCH

5/ PhD

a. Context

Title	Lexical Semantics Knowledge Representation for the Meaning Text Theory: Conceptualization, Representation, and Operationalization of Lexicographic Definitions.
Keywords	knowledge representation, lexical semantics, ontologies, web of lexical linked data, rule-based reasoning, Unit Graphs formalism.
Supervision	Fabien GANDON – CR Inria, Inria Sophia Antipolis
Co-Supervision ...	Christian BOITET – Pr. Université Grenoble 1
Reviewers	Nathalie AUSSENAC-GILLES – DR. Université de Toulouse, IRIT, CNRS Igor BOGUSLAVSKY – Pr. UPM Madrid & Russian Academy of Sciences Marie-Laure MUGNIER – Pr. Université Montpellier 2, LIRMM/Inria
Examiners.....	Andrea TETTAMANZI – Pr. Université de Nice Sophia Antipolis, I3S/Inria
Defense	planned June 24 th 2014, Sophia Antipolis, FR.

b. Abstract

We lead a knowledge engineering study applied to the linguistic predicates and the lexicographic definitions of the Meaning-Text theory (MTT). We adopt a three-step methodology:

- We first extend the conceptualization of the MTT. We show the necessity to define a deep-semantic level for the representation of meanings. We define deep-semantic units and their actantial structure so that their hierarchical organization corresponds to a hierarchy of meanings. We precise the notion of graph-based formal lexicographic definitions at this level. We present a validation of the extended conceptualization by the MTT lexicographers, thanks to an graph-manipulation application.
- We show that the semantic web formalisms and the conceptual graphs do not suit our need for the representation of the MTT knowledge. We hence develop a new graph-based knowledge representation formalism, called the Unit Graphs formalisms.
- Finally, we led two studies towards the operationalization of the Unit Graphs formalism. We characterized the logical reasoning capabilities of this formalism, and we developed an ontological model for the operationalization on the web of lexical linked data.

7/ Standardization activity

Participation to the **Multilingual-Web-LT W3C Working Group** until Oct. 2012 charter revision.
 ⇒ Maxime Lefrançois. MLW-LT, the Semantic Web, and Linked Open Data. *W3C Workshop: The Multilingual Web – Linked Open Data and MultilingualWeb-LT Requirements*, 11–13 June 2012, Dublin, Ireland.

8/ Previous research experiences

2010, 4 months	M2 – Internship in computer science	INRIA GRENOBLE
	Title : Ontology Alignment Evolution	
	Keywords: Ontology evolution, ontology alignment, ontology versioning, belief revision.	
	Team: EXMO Team, Inria Grenoble - Rhône-Alpes	
	Advisors: Jérôme Euzenat, DR, and Jérôme David, MC.	
2010, 3 months	M2 – Software engineering project	GRENoble 2
	Title : An interactive web environment for direct manipulation of mathematical objects	
	Place: service TICE-EAD, Université Pierre Mendès France (Grenoble 2)	
	Technologies: Java EE and Google Web Toolkit	
	Advisors: Mohammed El Methni, MC.	
2009, 5 months	M2 – Internship in signal processing and biomechanics	LIG GRENOBLE
	Title : Robust identification of numerous hand gesture for muscle-machine interaction	
	Keywords: surface electromyography, muscle-computer interaction, blind source separation, independent component analysis, continuous classification, sources localization	
	Place: GETALP team, Laboratoire d'Informatique de Grenoble	
	Link with computer science: HCI programing with Matlab.	
	Advisors: Christian Jutten, PU, and Franck Quaine, MC.	
2007, 4 months	M1 – Numerical methods internship	TU DELFT, NL
	Title : Implementation of the FETI-DP Method in the OOFELIE Code	
	Place: Precision and Microsystems Engineering Team, TU DELFT	
	Technologies: C++,	
	Advisors: Pierre Gosselet, CR, and Daniel Rixen, prof.dr.	

9/ Associations

- 2013** member of the *Association pour le Traitement Automatique des Langues* (ATALA)
2012 member of the *Association pour le Traitement Automatique des Langues* (ATALA)
 member of the *Association Française pour l'Intelligence Artificielle* (AFIA)
